

MURDER AT LASALLE.—The LaSalle Watchman of Saturday, states that on Wednesday last, a man was found floating in the steamboat basin south of How's warehouse.

Coroner LORAIN was sent, and upon examination the following facts were elicited.

There was a wound under the left eye, caused from a gun or pistol, a severe cut on the left hand glancing toward the elbow, leaving a frightful gash, and a severe bruise just back of his left ear, besides several other wounds.

EVERY DAY BRINGS SOMETHING NEW.—Dr. Wm. H. Allen, Dentist, of this city, administered chloroform to a rattle-snake, at Dr. Stahl's Drug Store yesterday, and extracted its fangs. The snake fought desperately at the smell of the chloroform, but soon became stupefied, and fell into a profound sleep. [Quincy Whig.]

Interesting to Sawyers!

WE wish to dispose of an interest—one-fourth
one-third, or one-half in our New Steam Saw
Mill (upright saw) on Salt River.

This Mill has as fine a location as any Country
Mill in the States, being on Salt River, at the point
at which the Hannibal and New London plank
Road crosses it. It is surrounded by a fine rich high
bottom, improving rapidly, requiring a vast amount
of lumber; and then only 71 miles from Hannibal,
from which, large bills can be had at good prices.
Our facilities for obtaining the various kinds of logs,
as Black Walnut, Maple, alders, etc., are
severely equalled by any other Mill. Salt River for
20 miles up abounds with the timber just named,
which can be at moderate prices.

To a first rate practical sawyer, on immediate application, we will sell an interest as above, on terms very accomodating. No other, than a thorough ex-
perienced sawyer, need apply.

The Shady Side.

D. K. GARMAN, Commercial Row, has just re-
ceived this most delightful little book, which is
having such a remarkable sale. The title reads as
of "Shady Side." I expect No. 5, Doctor of St. Bas-
trophus, &c., &c., must not fail to read the "Shady Side."
For warm weather especially, and as a book
for traveling reading, nothing better can be found.
Not merely is it highly bewitching and entertaining,
but "true to life," and the reader may learn from it
lessons of wisdom and profit. Well may it be termed,
as it has been, a "gem of a book."

THE INTRODUCTION OF FILEY'S STOVES

into Northern Missouri, to any extent, has been
in the last three years; since which time they
have been gradually increasing the manufacture
and sale of them; and although, owing to their
being light and smooth, and something new,
some little difficulty attended the sale and use
at first, yet by always making Stoves and Cast-
ings of the best quality of Scotch Pig and Mis-
souri Mountain Iron, they have proved to
withstand fire better than any other Casting
made in the western country. The Turnout
castings and hollow-ware particularly, have
been superseded by it, wherever it has been
brought into use, and always given satisfaction.
Having lived here a number of years, and being
permanently located here, purchasers can
rely on our guarantee as to the quality of the
article sold by us; and as to the operation of
our celebrated Prize-Premium Cook Stove, just
read the certificates of those who have used
them, and are using them now. And another
advantage a purchaser will have in buying a
St. Louis stove of us, he would not only be
getting a stove made of the best material in the
world, but he can at any time get an odd piece
or plate without any charge, by letting us know
that such is wanted, as all our stoves are war-
anteed, and, in case of imperfection, the article
will be promptly made good to the purchaser,
which he will not find the case with Cincinnati,
Chicago, Pittsburgh, and Eastern-made Stoves,
as you cannot get any odd pieces. Even if
they were warranted, it would be impossible to
get odd plates from such a distance.

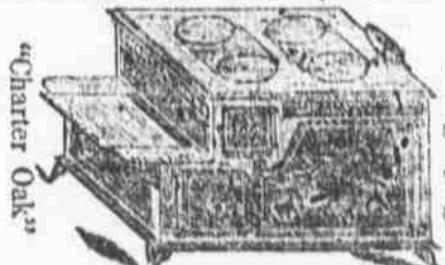

We, the undersigned, having used the St.
Louis Stoves manufactured by G. F. Fill y., of
St. Louis, and sold by CARTER W. BRYAN,
at Hannibal, Mo., take pleasure in recommending
them to the public as superior in point of
draft, durability, economy, convenience and
ease of regulation, to any stove which we have

NEW COOK STOVES!!

Persons wishing to buy stoves, should give
us a call, and examine our new patterns of

Having secured the agency of them for this city,
this stove possesses advantages over common
stoves, in thickness of the plate, and improve-
ments in draft. It is given up by all stove
dealers and manufacturers, to be the best pat-
tern for a descending flue, of any stove now
made East or West.

This stove was patented September, 1852,
and wherever they have been used, have given
general satisfaction. This stove weighs some
forty pounds more to the number than any other
stove ever brought to this city. The plates in
them are from one-half to three-fourths of an
inch in thickness. No. 1 weighs over 200
pounds. We warrant them all against fires.
These stoves have a Patent Hot Air Flue, which
carries the heat that is generated under the fire-
plate down the front part of the stove, between
two thick plates to the draft at the bottom of the
stove, thereby adding great heat to bake
with on the bottom, and remedying that which
has always been a fault with stoves of a de-
scending flue, heretofore. C. W. BRYAN.

The Footpath and Highway; or,
WANDERINGS OF AN AMERICAN TRAVELLER
IN 1851 AND 52. By Benjamin Morgan. This
volume embodies the observations of the author, made
during eight months wandering, as a correspondent
for American Journals; and as he traveled much on
foot, differs essentially from those on the same routes, by other writers.

New Themes for the Protestant Clergy;

FIELD'S without Charity, Theology without
Controversy, and Protestantism without Controversy,
with Notes by the Editor on the Literature of Christianity,
Population, Temperance, Political Economy, and
Prostitution. The great question which this book discusses is, whether the Church of this age is what the
primitive Church was, and whether Christians—both
powers and people—are doing their duty. Our author
believes not, and to our mind, he has made out a strong
case. He thinks there is abundant room for religion at
the present time, and that it is needed almost as much
as in the days of Luther.

Volume of 300 pages, by J. Thornto Randolph.

The Christian Observer speaks of this work says
it is "written with a sense of thrilling interest."
Well constructed, ably narrated, and contains scenes of

One of the most interesting books we have ever
had. A thin and more frail than "Uncle Tom."
There will be a universal rush for it.—[A. L. Adams' G. R. Publishing Co.]
